Batch: 2028
Degree: B.E - CSE

2024_28_III_OOPS Using Java Lab

2028_REC_OOPS using Java_Week 3_Q2

Attempt : 1
Total Mark : 10
Marks Obtained : 10

Section 1 : Coding

1. Problem Statement

Monica is interested in finding a treasure but the key to opening is to get the sum of the main diagonal elements and secondary diagonal elements.

Write a program to help Monica find the diagonal sum of a square 2D array.

Note: The main diagonal of the array consists of the elements traversing from the top-left corner to the bottom-right corner. The secondary diagonal includes elements from the top-right corner to the bottom-left corner.

Input Format

The first line of input consists of an integer N, representing the number of rows and columns.

The following N lines consist of N space-separated integers, representing the 2D array elements.

Output Format

The first line of output prints "Sum of the main diagonal: " followed by an integer, representing the sum of the main diagonal.

The second line prints "Sum of the secondary diagonal: " followed by an integer, representing the sum of the secondary diagonal.

Refer to the sample output for formatting specifications.

Sample Test Case

Input: 3
1 2 3
4 5 6
7 8 9
Output: Sum of the main diagonal: 15
Sum of the secondary diagonal: 15

Answer

```java
import java.util.Scanner;

public class Main {
  public static void main(String[] args) {
      Scanner scanner = new Scanner(System.in);
      int N = scanner.nextInt();

      int[][] matrix = new int[N][N];
      int mainDiagonalSum = 0;
      int secondaryDiagonalSum = 0;

      for (int i = 0; i < N; i++) {
         for (int j = 0; j < N; j++) {
            matrix[i][j] = scanner.nextInt();
            if (i == j) {
                mainDiagonalSum += matrix[i][j];
            }
            if (i + j == N - 1) {
```

```java
                secondaryDiagonalSum += matrix[i][j];
            }
        }
    }

    System.out.print("Sum of the main diagonal: " + mainDiagonalSum + " ");
    System.out.print("Sum of the secondary diagonal: " +
secondaryDiagonalSum);
  }
}
```

Status : Correct   **Marks : 10/10**
